1 PURPOSE OF THE DOCUMENT

Reporting periodically to the programme is one major responsibility of the project Partners which is regulated by the Grant Contract and the Partnership Agreement.

These legal documents detail on the type of reports requested by the programme and their content, the timeline, as well as on the responsibilities of the Partners.

The material aims to support the project Partners have a better understanding of the programme requirements, guide them on how to properly respond to the reporting tasks, and also make the necessary arrangements at project level in this respect.

2 TYPE OF REPORTS

(INTERIM) PROJECT REPORTS

- **Period covered by the report** – max. each 4 months-period of implementation
- **Submission** – max. 45 calendar days after each 4 months reporting period
- **Main content** – narrative and financial information for the period covered; related evidence
- **All type of projects**
- **Contract Reference** – art. 5.3

FINAL PROJECT REPORT

- **Period covered by the report** – technical, for the entire implementation period; financial, for all the expenditure not included in previous Project Reports
- **Submission** – max. 4 months after the end-date of implementation
- **Main content** – narrative and financial information; related evidence
- **All type of projects**
- **Contract Reference** – art. 5.3

DURABILITY REPORTS

- **Period covered by the report** – one year after closure/recovery request
- **Submission** – max. 30 days after the 12 months period following the date of the final payment/ recovery request, whichever is later (exceptions as per Art.5.20), for 5 years in the row (as per Art.5.17)
- **Main content** – durability aspects of the project, or project contributions to programme result indicators
- **Type of projects** – with infrastructure component (as per Art.5.17), or equipment¹ included in the investment component (as per Art.5.18), or projects² contributing to programme result indicators to be completed within 12 months after the end of implementation (as per Art.5.20 – 5.21).
- **Contract References** – art. 5.16 – 5.21

3 REPORTING ARRANGEMENTS AT PROJECT LEVEL

Clear management arrangements should be put in place at project and partners' level so as reporting runs smoothly, with no delays.

¹ As per MA request

² Only one Durability Report will be requested by the programme.

- The project staff must be assigned with clear tasks on reporting. Coordinating the staff in this respect is one major task of each project manager.
- Project Manager, the financial responsible, the communication responsible and the procurement responsible have to be involved in reporting, whether they are paid or not by the project.
- Project Managers can decide that different persons are responsible with different sections of the report. To this purpose, he/she shall ensure they have JeMS accounts.
- Partners must establish beforehand clear timelines for each reporting stage – preparation and submission of Partners' reports to the Controllers, preparation and submission of Project Report to the JS.
- The Lead Partner monitors the reporting process and provides JS/MA with any information requested in this respect.
- In case a Control Certificate is not available in due time for submitting the Project Report, it can be attached to the next Project Report. Expenditures not covered by a Control Certificate cannot be reimbursed.
- Technical and financial evidence on implementation must be kept and constantly organized by each Partner as the project is progressing. Each Partner will file, name, store and organize his own evidence, as recommended by the programme.
- Even if no expenditure has been made by the project during a reporting period, the Project Report still must be submitted to JS/MA.

Note

According to Article 5.5 of grant contract, the Lead partner may submit an interim report at the latest once every four months (in maximum 45 days after the respective 4 months have elapsed), and when the cumulative amount of expenditures requested by partners for reimbursement exceeds EUR 5,000. Moreover, Lead partner may submit an interim payment request, even in the absence of an individual partner report, if the latter has not been available within the established reporting deadline.

Nevertheless, in order to streamline the activities of the programme management structures and of the National Control, in cases where the **amount that can be reported is lower than EUR 1000**, beneficiaries are recommended to describe in the technical part the activities performed in the reporting period, but to postpone the request for verification of expenditures until the next reporting period. Please note that this condition does not affect the requirement to submit an interim report within 45 days after the end of a four-month implementation period.

5 MAIN CONTENT OF PROJECT REPORTS

Partners' and Project Reports include narrative and financial information for the reporting period covered, together with evidence supporting the information reported.

The narrative (technical) part includes (as per art.5.4 of the grant contract):

- full account of all aspects of implementation, including status of the procurement procedures, and achievement of project outputs and results as measured by the corresponding indicators, and supported by relevant sources of verification;
- description of the difficulties encountered and measures taken to overcome them;
- any changes intended to be made to the project;
- necessary updates on project management arrangements and risks management, schedule of activities, the information and communication plan, etc.;
- status of implementing the measures recommended following the monitoring or verification missions undertaken

The Final Report shall detail the project achievements, in particular project contributions to output and result programme indicators, benefits brought to the target groups, measures to ensure project durability etc.

The financial part details the actual costs incurred and paid before submitting the report to the Controller for verification.

Both technical and financial information must be supported by relevant and sufficient evidence as per art.5.8 of the grant contract, and the *Guide for Control* (available on the programme website), or as instructed by the programme.

The reporting templates are pre-set by JeMS and follow the Grant Contract provisions.

6 DATA REGISTRATION IN JEMS

- All the information will be introduced in English language.
- Fields bearing (*) are mandatory; in case they are empty, JeMS does not allow information to be saved.
- Descriptive information fields have a fixed number of characters, displayed by the system.
- Instructions provided by JeMS and the programme structures must be strictly followed.
- Information will be concise and relevant to the topic, and in full compliance with the content of the Application Form. In case of inconsistencies, clarifications or revision of the report may be requested.

7 ATTACHMENTS IN JEMS

- Attachments must be relevant and sufficient to support the information reported.
- Extra-large documents should be avoided; one attachment cannot go over 50 MB.
- To bring together multiple documents, it is recommended to use .RAR or .ZIP electronic archives (max. 50 MB), with a content list enclosed.
- Attachments can be deleted or modified only in the section where they were uploaded, and only if the report was not yet submitted to the Controller / JS.
- Documents uploaded into JeMS shall be scanned in one direction; Partners shall ensure they are legible and show the necessary signatures and stamps.

Important – Documents will mandatorily bear the project identification number in JeMS.

8 NAMING OF DOCUMENTS – EXAMPLES

- All documents must be named in English, even if their content is actually in the national language.

- The name of the document will show the report number, Partner ID in JeMS, and make reference to the codes given by the system in the last approved Application Form to activities, deliverables, etc.

9 SETTING JEMS PRIVILEGES

- Staff assigned with reporting tasks by the Lead Partner or Partners must have user accounts in JeMS e.g. the project manager, financial responsible, procurement responsible, etc.
- The user with “Manage” privilege in JeMS shall ensure that the reporting staff has “Edit” permission.
- Partners must add to their JeMS users the person appointed by the Lead Partner to draft the Project Report and give him/her “View” permission.
- Access to sensitive data requires a specific privilege in JeMS which is set by each Partner, individually.

Partners must add to their JeMS users’ the person assigned by the Lead Partner to draft the Project Report and provide them with a “View” privilege.

10 PARTNER REPORT – POINTS OF ATTENTION

Aspects listed below are connected to sections or sub-sections of the Partner Report. It is strongly recommended to follow them closely in order to ensure accurate reporting to the programme, and avoid requests of clarifications or revisions which might delay the reimbursement of funds.

JS/MA will follow-up the recommendations.

12 REIMBURSMENT OF COSTS – CALCULATION EXAMPLE

The example below considers a Partner in a small-scale project, to whom 30% of the grant was paid by the programme as an advance payment.

In the Partner's budget, the grant represents 90%, and co-financing represents 10%.

	EXPLANATIONS	CALCULATION
Real costs	<i>Reported by the Partner and validated by the Controller</i>	70,000 EUR
Flat rates	<i>Automatically calculated by JeMS</i>	9,039.80 EUR
Total Reported	<i>Grant (90%) + Co-financing (10%)</i> $= 71,135.82 \text{ EUR (grant)} + 7,903.98 \text{ EUR (co-financing)}$	79,039.80 EUR
Advance Deducted	<i>Art. 4.5 of the grant contract</i>	23,711.94 EUR
Payment to Partner	<i>Grant reported – Advance deducted</i>	47,423.88 EUR
