1. Introduction

The implementation of projects in the framework of ENI CBC requires the procurement of works, supplies and/or services by the beneficiaries in nearly all of them.

During the programming period 2007-2013 ENPI CBC projects were obliged to use the procedures of the Practical Guide to Contract procedures for EC external actions (PRAG). This obligation has not been included in the ENI CBC Implementing Rules (EC Regulation 897/2014), hereinafter ENI CBC IR.

The new regulatory framework allows therefore for the use of national legislation and procedures in CBC Partner Countries. However, national rules will be applied (1) under certain conditions and (2) only for certain types of beneficiaries. The present factsheet aims to describe the applicable rules of awarding contracts related to works, supplies and services for public the Ukrainian beneficiaries¹, deriving from the applicable legislation, but also from the programmes' specific rules and the Financing Agreement.

¹ For the purpose of this note, the notion of "non-public", that is, "private beneficiary" should be understood as private non-profit organization, as none of the programmes in which Ukraine is involved allows for the participation of profit-making bodies (e.g., businesses). A separate guide on procurement is available for them.

2. Applicable legal provisions

2.1. Provisions in the ENI CBC Implementing Rules

Section 1 of the chapter 4 of the ENI CBC IR regulates procurement. The articles relevant to Ukrainian beneficiaries are as follows:

Article	Content			
52.2	General principles			
52.3	52.3 Rules of nationality and origin			
53 Procedures and thresholds for service contracts				
54 Procedures and thresholds for supply contracts				
55 Procedures and thresholds for work contracts				
56 Use of negotiated procedure				

General principles

Article 52.2 stipulates that:

- a) The contract is awarded to the tender offering the best value for money, or as appropriate, to the tender offering the lowest price, while avoiding any conflict of interest;
- b) For contract with a value of more than 60.000€, the following rules shall apply:
 - i. An evaluation committee shall be set up to evaluate applications and/or tenders on the basis of the exclusion, selection and award criteria published by the beneficiary in advance in the tender documents. The committee must have an odd number of members with all the technical and administrative capacities necessary to give an informed opinion on the tenders/applications;
 - ii. Sufficient transparency, fair competition and adequate ex-ante publicity must be ensured;
 - iii. Equal treatment, proportionality and non-discrimination shall be ensured;
 - iv. Tender documents must be drafted according to the best international practice;
 - v. Deadlines for submitting applications or tenders must be long enough to give interested parties a reasonable period to prepare their tenders;
 - vi. Candidates or tenderers shall be excluded if they fall within one of the situations described in article 106(1) of Regulation 966/2012 [...] (bankruptcy, etc.).

In 2016, Ukraine joined the World Trade Organisation Agreement on Public Procurement, therefore the law on procurement approved in December 2015 fulfils the conditions to be considered as "*best international practice*". Information about this agreement may be found in the following URL address:

https://www.wto.org/english/tratop_e/gproc_e/gp_gpa_e.htm

Nevertheless, the Ukrainian beneficiaries, in accordance with the provisions of the Financing Agreement, also need to comply with the rules stipulated in the ENI CBC IR. A specific check-list for the verification of the compliance has been prepared. The identified potential incompliances are indicated in this guide.

Rules of nationality and origin

Article 52.3 stipulates that "In all cases, the rules of nationality and origin set forth in articles 8 and 9 of Regulation 236/2014 shall apply." This rule is also included in article 5 of the General Conditions of the Financing Agreements signed between the European Union and Ukraine for the ENI CBC programmes.

What does it mean in practice?

The **rule of nationality**, that is, the eligibility conditions for the participation of tenderers in procurement procedures, is the same as the one applied in the Member States. Therefore, there is **no restriction on nationality of tenderers**.

This Regulation provides that in the case of actions implemented under shared management with a Member State, as it is the case in the ENI CBC Programmes, **countries that are eligible under the rules of that Member State are also eligible.** According to the Romanian, Polish and Hungarian legislations, no restrictions regarding origin are foreseen, so there is **no restriction on the origin of supplies**.

As an exception, the sanctions currently imposed by the EU on Russia (and vice versa) may lead to restrictions in the acquisition of goods and services from this country.

Procurement procedures and thresholds

Articles 53 to 55 of the ENI CBC IR define the type of procedure and thresholds for services, supplies and works, as follows:

Article 53	Service contracts
> 60.000€ < 300.000€	Competitive negotiated procedure without publication
≥ 300.000€	International restricted tender

Article 54	Supply contracts
> 60.000€ < 100.000€	Competitive negotiated procedure without publication
≥ 100.000€ < 300.000€	Open tender procedure published in the programme area
≥ 300.000€	International open tender

Article 55	Work contracts
≥ 60.000€ < 300.000€	Competitive negotiated procedure without publication
≥ 300.000€ < 5.000.000€	Open tender procedure published in the programme area
≥ 5.000.000€	International open tender

In the cases where the tender needs to be published in the programme area, the beneficiary might need to go beyond the obligations of the national legislation, that is, whatever the threshold stipulated at national level, the publication should be in English. Moreover, it should be published by other means on top of the Ukrainian electronic platform, so that the potential suppliers from the other participating countries of the programme area are informed (e.g. web-site of the project or of the programme).

Nevertheless, the thresholds in the ENI CBC IR are not directly applicable to all Ukrainian beneficiaries, as indicated in the Financing Agreements:

Article 9 of the Special Conditions of the Financing Agreements stipulate that: "[...] For the avoidance of doubt, **lower thresholds** than those set out in title VI Chapter 4 of Implementing Regulation (EU) no 897/2014 may be applied by beneficiaries or the CBC partner country".

This clause applies to the public bodies, as the thresholds in the national legislation are lower and the national legislation is mandatory for these bodies.

Moreover, there is no specific reference in the ENI CBC IR on the procedures with a value **below 60.000€**. Also in these cases, beneficiaries need to refer to the **national legislation and, where allowed, to the internal rules of the organisation**.

Note that contracts must not be split artificially to circumvent the procurement thresholds.

Irrespective the amounts concerned, all procurements must respect the **general principles** of avoidance of conflict of interest, transparency, fair competition, equal treatment, proportionality and non-discrimination (unless regulated otherwise in the Guidelines for applicants or in the grant contract).

Conversion of thresholds from Euro to Ukrainian Hryvnia (UAH)

The amounts indicated in the ENI CBC IR and in the programme rules are all in EUR, while in the actual procurement procedures UAH will be used. Which exchange rate should be used to verify if the procedure is above or below the threshold?

Article 8 of the General Conditions of the Financing Agreements stipulates that "[...] in case of procedures in currencies other than Euro, the amount shall be converted to Euro using the exchange rate method mentioned in the Programme (Annex II)."

The exchange rate may be "monthly accounting rate of the Commission", which can be found in the **Inforeuro website** at the following URL address: http://ec.europa.eu/budg/inforeuro/index#!/countries/

Use of negotiated procedure

Article 56 of the ENI CBC IR stipulate that "The beneficiary may decide to use negotiated procedure on the basis of a single tender in the cases referred to in Article 266 of Delegated Regulation (EU) No 1268/2012." This article provides a list of reasons for justified use of the negotiated procedure and need to be complemented with the instructions and thresholds stipulated in articles 265, 267 and 269 of the above-mentioned Regulation.

"Negotiated procedures" **should not be confused** with the "Competitive negotiated procedure" mentioned in article 53 to 55.

A non-exhaustive list of the cases referred in Article 56 of ENI CBC IR is:

- Extreme urgency,
- Extension of contracts already started (with respect of certain conditions),
- Additional delivery of original supplies as replacement of normal supplies,
- Contract following a contest,
- The tender procedure has been unsuccessful,
- Where for technical reasons, or for reasons connected with the protection of exclusive rights, the contract can be awarded only to a particular provider,
- Where a new contract has to be concluded after early termination of an existing contract.

The use of negotiated procedure is **exceptional** and there are specific provisions in national legislation. Please **check very carefully** article 35 of the

Law of Ukraine on public procurement to assess the convenience of using this procedure.

2.2. Provision in the grant contract

The grant contract stipulates for public bodies in its article 9.3 a):

a) the Lead Beneficiaries / Beneficiaries established in Ukraine, shall apply national procurement laws. Notwithstanding the previous paragraph and if national legislation imposes otherwise, for contracts below 60,000 EUR the provisions of the Procurement and grants for European Union external actions (PRAG), including templates and details related to each type of procedures (mainly PRAG chapters 2, 3, 4, 5 and 8), in force at the moment of the launch of the call for proposals/the date of the JMC Decision approving the LIP [title], available at http://ec.europa.eu/europeaid/prag/, and http://ec.europa.eu/europeaid/prag/annexes.do, respectively.

3. Requirements on procurement for Ukrainian public bodies

3.1. General principles

The "*Law of Ukraine on public procurement*" (see reference in the previous section of this document) shall apply to the beneficiaries considered as public bodies in the understanding of the law². Article 6 of the law allows to use procurement provisions of the ratified international treaties of Ukraine, if different from the law.

The general procurement principles, as stated in article 3 of Chapter I and in Chapter III, are in line with the ENI CBC IR: fair competition, economy and efficiency, transparency, non-discrimination, objectivity and fight against corruption and fraud.

3.2. Definition of public bodies

Article 1.9 of the "Law of Ukraine on public procurement" includes the following definition of "**contracting authorities**":

"Contracting authorities" refer to public authorities, local self-governing authorities and social insurance and welfare bodies established under the law, as well as legal entities (enterprises, institutions, organizations) and their associations that provide for satisfying the needs of the State or a local community, if such activities are carried out otherwise than on an industrial or commercial basis, and if they have any of the following characteristics:

- the legal entity is an administrator, recipient of budget funds;
- public authorities or local self-governing authorities, or other contracting authorities have the majority of votes in the supreme governing body of the legal entity;
- more than 50 percent of shares (interests, participatory interests) in the legal entity's authorized capital belong to the State or a local community.

Contracting authorities shall also include legal entities and/or economic operators operating in certain areas of economic activity and meeting at least one of the following criteria:

- public authorities, authorities of the Autonomous Republic of Crimea, local selfgoverning authorities own a share of more than
- 50 per cent in the authorized capital of the economic operator, or such authorities have the majority of votes in the supreme governing body of the economic operator or the right to appoint more than a half of the members of the economic operator's executive or supervisory board;
- enjoying special or exclusive rights;

² This is without prejudice to the application of a different notion of "public body" for the purposes of determining the financial liability of Ukraine in accordance with Article 74.5 of the ENI CBC IR and the Financing Agreement.

3.3. Language requirements

The procurement announcements have to be published in Ukrainian, even though other languages may be used regardless the amount, if decided by the contracting authorities in accordance with article 15.

For procedures related to services and supplies equal or more than 133.000€ and for procedures related to works equal or more than 5.150.000€, tender announcements should be also published in English according to article 10.4.

3.4. Type of procurement procedures

The law defines the following types of procedure, which are described in detail in chapter VI:

- Open tender,
- Competitive dialogue when specifications are hard to determine,
- Negotiated tender, as an exception for arts, intellectual property, architectural, no competition, urgency, etc.

3.5. Use of on-line system "Prozorro"

The "Law of Ukraine on procurement" requests that all public bodies use an **eprocurement** on-line system via a dedicated web portal called "**Prozorro**". The use of the system is regulated by the Decree N° 473 of the Ministry of Economic Development and Trade of Ukraine of 18 March 2016.

Some useful links for the system are:

3.6. Applicable thresholds

The "*Law of Ukraine on public procurement*" stipulates the minimum thresholds for public bodies, but also allows the concerned institutions for the use of lower ones.

The thresholds in the Law are expressed in UAH. This guide uses the accounting rate of the Commission of the month of June 2019, that is 29,4637 UAH/EUR. The updated accounting rate may be found in:

(http://ec.europa.eu/budg/inforeuro/index#!/countries/).

The Law fixes the following thresholds for the use of Prozorro:

Type of contracts	Amount in UAH	Estimated amount in EUR (June 2019)
Supplies and services	200.000 UAH	6.788,01 €
Supplies and services for certain economic activities, as per article 1.4, such as energy or transportation	1.000.000 UAH	33.940,07 €
Works	1.500.000 UAH	50.910,10€
Works for certain economic activities, as per article 1.4	5.000.000 UAH	169.700,34€

When procuring services, supplies and works below the threshold indicated in the law for the use of Prozorro, the contracting authorities shall also comply with the public procurement principles and may also use the e-procurement system for the purpose of selecting the contractor.

In case Prozorro is not used for the procurement of services, supplies or works where the value is equal or exceeds 50.000 UAH ($1.697,00 \in$) and even if it is below the thresholds, the contracting authorities shall publish a report on awarded contracts within the e-procurement system, in accordance with article 10 of the Law.

However, the public bodies may decide to apply lower thresholds for the use of Prozorro.

4. Compliance with ENI CBC Implementing Rules

Even though the Law of Ukraine is compliant with the requirements of articles 52.2 to 56 of the ENI CBC IR, there are some few points of attention, which might imply ineligibility of expenditure if not taken into account:

- Composition of the tender committee;
- Exclusion criteria for tenderers;
- Tender documents in accordance with best international practices.

4.1. Composition of tender committee

Article 11 of the Law stipulates:

[...] a contracting authority shall create a tender committee(s) or appoint authorised person(s) for the purpose of organizing and holding procurement procedures [...] A tender committee shall consist of at least five members. Where a contracting authority's staff consists of fewer than five persons, the tender committee shall be composed of all officers (officials) of the contracting authority.

The beneficiaries must consider the requirement of the ENI CBC IR of an **odd number** of **members**, which is compatible with the provision in the Law of Ukraine. The appointment of authorized person must be avoided.

4.2. Exclusion criteria for tenderers

Article 17 of the Law stipulate exclusion criteria for tenderers. However, the eligibility criteria defined are not fully compliant with the requirements of the ENI CBC IR.

Not including specific provisions in the tenders, which fully comply with the eligibility criteria, may lead to the full or partial ineligibility of expenditure. Therefore, it is necessary to add **a declaration on honou**r fully compliant with the ENI CBC IR. A template for such declaration is included as **annex A** of this document

4.3. Tender documents in accordance with best international practices

There are no specific templates under the Ukrainian legislation, but the minimum content of the compulsory documents is stipulated in the Law on public procurement and the Order N° 680 of the Ministry of Economy of Ukraine of 13 April 2016 on "Sample tender documentation for open tender procedure" (Наказ N° 680: примірна тендера документація). There is no reference to single tender or competitive negotiated procedure, which may be used only below the thresholds for the compulsory use of Prozorro.

In the following check-list we compare the compulsory documents in PRAG with the compulsory ones indicated in the Law on Procurement of Ukraine and the above-mentioned Order from the *Mineconomy*. As there are no templates, we analise if the minimum information in the Law and the Order is in line with the equivalent documents in PRAG. When the **information is not fully in line with PRAG**, please refer to the comparative table below the check-list.

The information in PRAG is not always in the same document than the one mentioned in the Order N° 680, so we make a reference to them, whenever needed. The sections in the Order N° 680 are:

- General terms;
- Providing explanations relating to tender documents and changes therein;
- Submission and opening of tenders;
- Evaluation of the tenders;
- Results of the auction and award of the procurement contract.

4.3.1. Additional templates

As indicated in the check-list above, some of the documents stipulated in PRAG are not usual in the Ukrainian procedure or there is no specific template.

We strongly recommend:

- to adapt (and translate) PRAG templates or
- to ensure that its content is included in your usual templates,

in case of **procurement documents NOT compliant** with EU's practices. The non-inclusion of this templates may result in the ineligibility of the expenditure.

You may find the templates in the annexes for services, supplies and works in the following URL: <u>https://goo.gl/Ungxi6</u>³

The additional templates to use are:

Document	PRAG reference
Prior notice	b1_priorinfo_en.doc (services); c1_priorinfo_en.doc (supplies); d1_ priorinfo_en.doc (works)
Declaration of honour on exclusion and selection criteria	Adapted version in Annex A of this document

Draft contract (works)	d4n_contract_en.doc d4o_specialconditions_en.doc d4p_annexgc.pdf

"Tender documents must be drafted according to best international practice" This is an essential requirement for the eligibility of expenditure.

Despite the recent alignment of Ukrainian legislation with best international standards, the **absence of harmonized templates** obliges the Ukrainian public beneficiaries to a thorough verification of the compliance of its usual templates.

DO NOT PROCURE AS USUAL!!
