

Educational-Artistic Horizons beyond the Borders

EDUCATION

EdAH

The problem.

Project's solution

Limited access to resources, unequal opportunities in arts education, and low engagement in community-focused artistic activities challenge educational development in Botoșani and Ivano-Frankivsk.

By equipping two vocational schools with modern artistic equipment, enhancing the skills of staff members through workshops, and cultural exchange, the cross-border cooperation aims to improve access to quality arts education and strengthens educational and social ties across the regions.
