Modern Cooperation for Mobility and Integrated Control in the RO-UA Border Area

FRONTLINE+

The problem. Project's solution

The Romania–Ukraine border area faces fragmented legal frameworks, weak institutional coordination, and limited administrative capacity, reducing the efficiency of cross-border cooperation and crisis response. The project addresses these challenges through joint protocols, cross-border training, digital cooperation tools, formal partnership agreements, and structured dialogue mechanisms that strengthen institutional interoperability, sustainable governance, and long-term cooperation between Romanian and Ukrainian border authorities.
